Our **Victan®** casings are uniquely designed to complement your process and protect your product.

Along with their customizable meat adhesion qualities, these medium-to-high-barrier casings are ideal for the production of cooked deli meats and sausage.

## Products

**Victan® XMCC:** For applications that require the highest level of barrier protection and extended shelf life.

**Victan® HD:** The gold standard of polyamide-based, multilayer, cook-in casings in North America – designed to keep sausages fresher, longer.

**Victan® Shape:** A shrinkable casing well suited for D-shaped and oval products.

**Victan® C:** For sausage products that will be frozen with the casing remaining on.

**Victan® SLS:** For sausages that are to be cooked and stripped – this casing peels from the product cleanly and in one piece.

**Victan® PT:** Monolayer, nylon-based casing for cooking and stripping applications – also can be used for cooking.

**Victan® P:** Monolayer, nylon-based casing for cooking and stripping applications – also performs well on items cooked in molded form.

## Customer Applications

- Cooked or raw products manufactured in hanging, laying, or molded forms

## General Benefits

- Outstanding diameter control and meat adhesion per customer specifications
  - Victan® XMCC
  - Victan® HD
  - Victan® Shape
  - Victan® C
  - Victan® SLS
- Good diameter control and good meat adhesion
  - Victan® PT
  - Victan® P
- Wide variety of USDA approved colors
- In-house graphic design and high-technology, full-color printing capabilities

## Forms

- Shirred
- Reel
- Cut
- Clipped

## Diameter

- Shirred product diameters from 28mm-190mm

## Approvals

- USDA/FDA approved
- Kosher approvals available for most products
- CFIA approvals available for most products
